PD Dr. Wolfgang Kössler

Publikationsverzeichnis (begutachtet)

47. Kössler, W., Marozzi, M., Lenz **2026** Unscambling Billing Fraud - Testing or Estimating contamination? in: Knoth, S. and Schmid, W. (Ed.) Frontiers in Statistical Quality Control, vol. 15. Proceedings of a Workshop, Lissabon, in press.

46. Kössler, W., Marozzi, M., Lenz **2026** Goodness-of-Fit Tests or Measuring Contamination Fractions? Statistics https://doi.org/10.1080/02331888.2026.2661813

45. Kössler, W., Lenz, H.-J. und Wang, X.D. **2026** Detecting manipulated Data Sets using Benford's Law. in: Knoth, S. and Schmid, W. (Ed.) Frontiers in Statistical Quality Control, vol. 14. Proceedings of a Workshop, Washington, 2023, 269-279. https://doi.org/10.1007/978-3-032-02975-1.

44. Kössler, W., Lenz, H.-J. und Wang, X.D. **2026** Scaling tests of Benford's law, Journal of Statistical Computation and Simulation, vol. 96, Issue 3, 694-711. https://doi.org/10.1080/00949655.2025.2571681

43. Kössler, W., Lenz, H.-J. und Wang, X.D. **2025** On Some Properties and Testing Benford's Law. in: A.Steland (Ed.) Stochastic Models, Statistics and Their Aplications, Proceedings of a Workshop, Delft, March, 2024, 183-198.

42. Funato, M., H. Murakami, W. Kössler, und A. Mukherjee **2024**. Nonparametric Tests for Combined Location-Scale and Lehmann Alternatives using Adaptive Approach and Max-type Metric, Journal of the Korean Statistical Society, https://doi.org/10.1007/s42952-024-00262-7

41. Kössler, W., H.-J. Lenz und X.D. Wang **2024**. Some new invariant sum tests and MAD tests for the assessment of Benford's Law, Computational Statistics, doi: https://doi.org/10.1007/s00180-024-01463-8

40. Kössler, W., H.-J. Lenz und X.D. Wang **2023**. Detecting manipulated Data Sets using Benford's Law. in: Frontiers in Statistical Quality Control.

39a. Mukherjee,A., W. Kössler und M. Marozzi **2022** Laymans Abstract to A distribution-free procedure for testing versatile alternative in medical multisample comparison studies, Statistics in Medicine 2022, doi: https://www.statisticsviews.com/article/laymans-abstract-for-statistics-in-medicine-on-a-distribution-free-procedure-for-testing-versatile-alternative-in-medical-multisample-comparison-studies/

39. Mukherjee,A., W. Kössler und M. Marozzi **2022** A distribution-free procedure for testing versatile alternative in medical multisample comparison studies, Statistics in Medicine 2022, doi: https://onlinelibrary.wiley.com/doi/10.1002/sim.9397

38. Mukherjee, A., W. Kössler und H. Murakami (**2021**). Two New Distribution-Free Two-Sample Tests for Versatile Alternative Statistics,
DOI: 10.1080/02331888.2021.1998053. https://doi.org/10.1080/02331888.2021.1998053.

37. Kössler, W., H.-J. Lenz und X.D.Wang (**2021**) Is the Benford Law useful for data quality assessment? In: Frontiers in Statistical Quality Control, Springer, vol. 13, p.391-406

36. Mukherjee, A., W.Kössler (**2020**). Distribution-Free Simultaneous tests for Location-Scale and Lehmann Alternative in Two-Sample Problem Biometrical Journal 62, 99-123. Article ID: BIMJ2042, Article DOI: 10.1002/bimj.201900057, Internal Article ID: 16549193

35. Falkenhagen, U., W.Kössler, H.-J.Lenz (**2019**) Inlier Detection. in: A.Steland, E. Rafajlowicz, K.Szajowski (Eds.) Stochastic Models, Statistics and Their Aplications, Proceedings of a Workshop, Dresden, March, 2019, 351-362.

34. Kössler, W., H.-J. Lenz und X.D.Wang (**2019**) Is the Benford Law useful for data quality assessment? Proceddings of the 13th international workshop on intelligent statistical quality control, Hongkong 12.-14 August,2019, 109-122.

33. Kössler, W. und A. Mukherjee (**2019**). Distribution-Free Simultaneous tests for Location-Scale and Lehmann Alternative in Two-Sample Problem, Biometrical Journal
Article ID: BIMJ2042, Article DOI: 10.1002/bimj.201900057, Internal Article ID: 16549193
